Monochrome / Tonal Drawing

1. Working from life we will create a quick 30 min monochrome drawing to develop the composition gaining a understanding of light and dark values. This drawing will then be used for painting reference.
2. We will use Luxarchival paper or UArt400 sanded pastel paper (provided). I will show you two ways to create a underpainting using local color or tonal color.
3. I will demonstrate how to apply the pastel to the watercolor underpainting through different mark making like hatching, cross hatching, thick and thin lines and layering colors.

Watercolor Unpainting

Using Luxarchival paper and mixing brushes or bristle brushes, you will create a loose expressive watercolor with local color or tonal colors artists choice.

Pastel Painting

Working with a mix of soft & hard pastel we will then develop the painting with different mark making like hatching, cross hatching, layering color and more.

Supply List:

I will have soft and hard pastels to share as well as watercolor palettes, wet wipes, paper towels.
